Title One Fall Annual Meeting Minutes
Centennial Elementary
Thursday, September 26, 2019

The meeting was held in the Library at Centennial Elementary. Ms. Burks, the building principal, began the meeting at 5:30. She greeted the parents and teachers and thanked them for coming to our annual Fall Title One and Accountability meeting. She shared that the current campus enrollment is 714 students. She also shared Centennial’s demographic breakdown with parents. Ms. Burks informed everyone that we are meeting this evening to review our Title One information and our assessment information. She explained to the parents that we currently have $108,240 budgeted for Title One funds this year. Our campus Instructional coach and Behavioral Specialist are funded through this program. She described their jobs and the intense need for them.

Next, Ms. Burks moved onto the Title One Fall Meeting agenda. She shared that our Title I contact person this year is Malinda Astorga, clerk. She then addressed every item on the agenda (see attached). After reviewing the entire agenda, she directed parents to read the bottom portion on the back of the page. She encouraged parents to complete the bottom portion if they had feedback to offer our campus. She also encouraged parents to speak to her or to Malinda Astorga, the Title One contact, about any questions or concerns they had regarding the Title One information.

After introducing all of our campus instructional curriculum, Ms. Burks reviewed the assessments we give each year. She went over all the indexes for 2019 STAAR and Centennial’s scores in each index. She shared the summarized goals for the year (see agenda) and spoke to the focus on student growth as that is the area impacting our school the most. She also discussed Domain 3 and the Federal targets and how Centennial is not meeting many targets with our subgroups which works hand-in-hand with student growth. She explained that because of Domain 3, Centennial is a Comprehensive Support campus. Ms. Burks explained that much of our funding and accountability is based upon our economically disadvantaged listing. After several questions, we thanked the families for coming.

No parents were present for the first offering of the meeting at 7:15 am on Thursday, September 26, 2019.
