

# Khan Academy

## How to create an account for your child under 13:

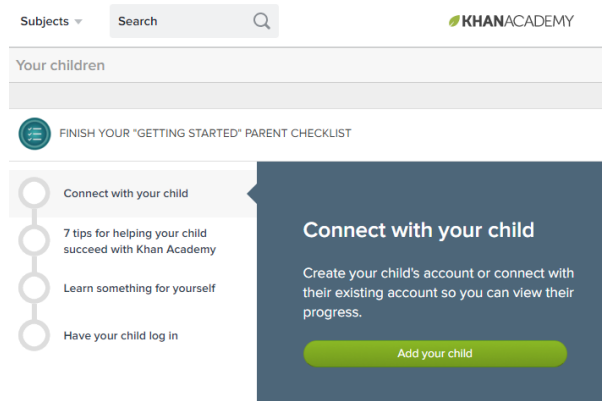

- Go to <https://www.khanacademy.org>
- Click “Parents, start here”

- You must first create your parent account prior to being about to create an account for your child.

- You may create your account using either Google, Facebook, or with an email address. You will then follow the instructions to complete the account creation process and then click “Sign Up.”
- Click “Add your child.”

- Enter your child's birthday and create a username and password for your child. Check the box that allows your child to add other coaches, and click "Next."

The screenshot shows the 'Create your child's Khan Academy account' form. At the top, it says 'Create your child's Khan Academy account.' Below this is a section for 'Your child's birthday' with three dropdown menus set to 'Mar', '2', and '2007'. The next section is 'Create a username and password for your child'. It includes a note: 'Because your child is under 13, they will have a [restricted child account](#). Tip: Write down the username and password you choose for your child.' There are three input fields: 'Child's username' (with 'example: bluemonkey128' and a note: 'Usernames may only contain letters and numbers, no spaces. For your child's privacy, don't include their real name in their username.'), 'Child's password' (with a note: 'Passwords are case-sensitive and must be at least 8 characters.'), and 'School grade' (set to 'Not specified'). Below these are 'Gender' (set to 'Not specified') and a checked checkbox 'Allow your child to add other coaches' with a yellow arrow pointing to it. At the bottom right is a green 'Next' button with a yellow arrow pointing to it. At the bottom left is a link: 'My child already has an account'. A disclaimer at the bottom reads: 'By clicking next, you confirm that you are the child's parent or legal guardian and agree to our [Terms of Service](#) and [Privacy Notice](#)'.

- If you would like to create accounts for additional children, click "Add another child."

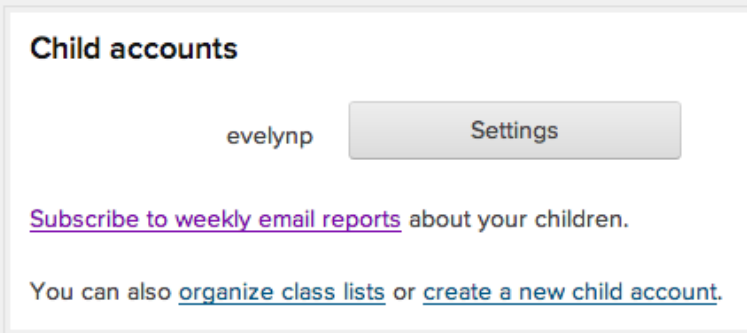

The screenshot shows a confirmation screen with the text: 'Your child's account has been created! For your child to log in now, you will first need to log out.' Below this text are three buttons: a green button 'Log out and have your child log in', a grey button 'Visit your parent homepage', and a grey button 'Add another child'.

- Once you have created accounts for your children, you may view tips for success, sign yourself up as a learner, or help your child log in by clicking "Visit your parent homepage."

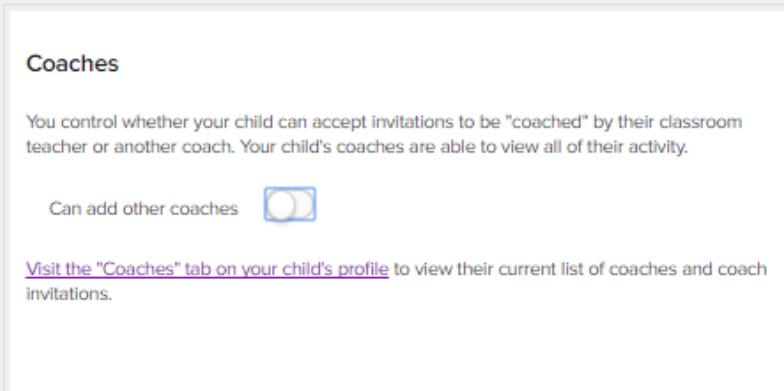

## How to add coaches to your child's account:

### To add a coach

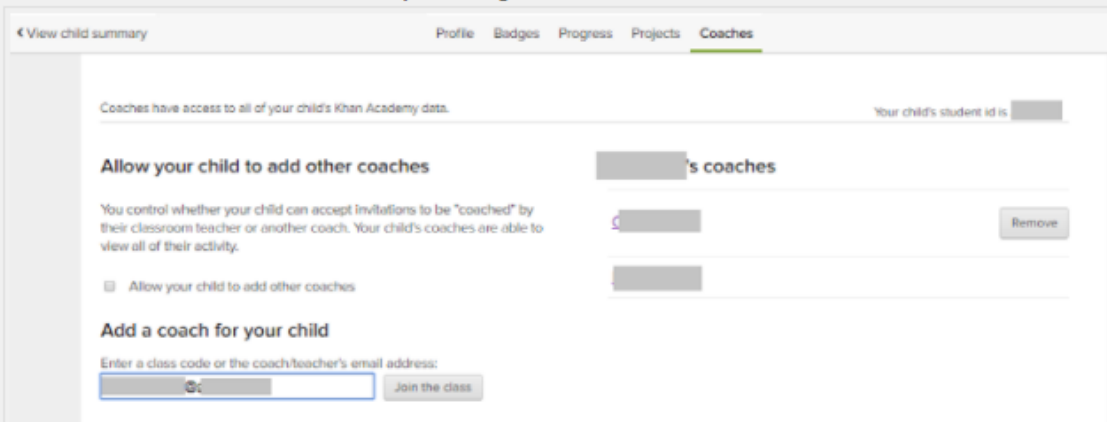

1. Log in to your parent account and click your name at the top right. Choose **Settings** from the menu.
2. On your Settings page, scroll down to **Child accounts** and click the **Settings** button next to your child's username:

3. On your child's Settings, scroll down to **Coaches** and click **Visit the Coaches tab on your child's profile**.

4. Add the coach to the child account by entering the class code or the teacher's email address.

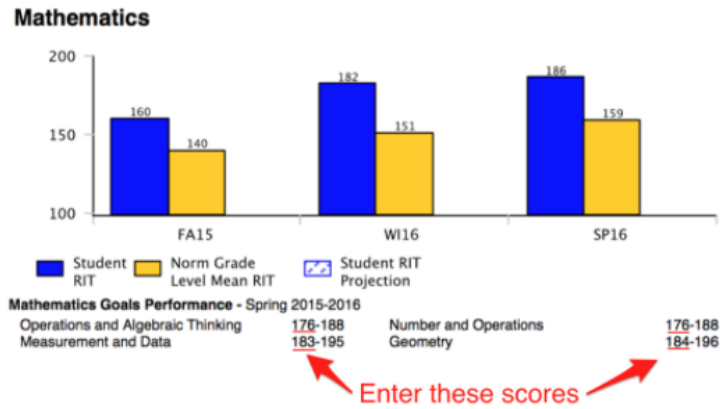

# How to link your child's MAP scores to their account to generate personalized study recommendations:

- Visit <https://www.khanacademy.org/mappers>

Fill in the lower score for each MAP Test Goal Performance Area.
