ELEMENTARY
One Community, One Vision: Excellence

Classroom Placement Policy

The Process

Annual classroom placement is carefully determined prior to the start of school for each student returning to Jose S. Ramirez Elementary. Placement is determined by the information provided by student's current teacher and grade level team of teachers. Newly enrolled students are added to the classes as they register, with classroom decisions based on whatever information is available from referring schools and parents and the need to balance class composition.

Assignment of the student to a class will consider academic capability, learning style, work/study habits, social needs, special education placement, and gender ratios. There are a number of factors taken into account when placing students for the following school year.

The Purpose

The objective is to place all students with a teacher in a balanced class that will support their learning and growth. At Ramirez, we are very fortunate to have an exceptional group of teachers and staff to work with our students and families. It is for the aforementioned reasons, that we do not honor specific teacher requests.

This is an important process that needs to be fair, consistent and student focused. Our staff will work hard to ensure your child is placed appropriately using the criteria previously stated.
