

# Matthews Mentor Program

Matthews is committed to the continuation of educating **all students, every day, anywhere, and anytime**. A huge part of this effort comes from our in-house mentoring program.

Every student who enrolls at Matthews is assigned a teacher-mentor, who meets with them individually and in groups every week.

Our group meetings give students the opportunity to learn life skills that go beyond the classroom, and they also get to build relationships with their peers-which goes along with building community relationships.

Mentors are available anytime a student needs help in any area. Our mentoring program is just one step in developing the **whole student**, as a person, and not just in academics.

We believe if you truly invest in and care for your students, the academic component will have a much better chance of success.

Mentoring period is 12:13 – 12:58pm, each Friday. To participate, you will receive a **Google Classroom** invite from your mentor.

We are excited to have you at Matthews Academy.
