

Environmental Science Syllabus

lee.handlin@lubbockisd.org

What We Will Learn this year

Unit topics: safety, scientific method, metric system, history, habitats, ecosystems, biomes, environmental relationships, conservation of resources, flow of energy and matter, population growth factors, and environmental changes. Labs will be conducted on a regular basis to further the understanding of these topics.

Supply List

- ✓ Chromebook charged daily
- ✓ Spiral Notebook
- ✓ Pencils, pens, highlighters

* You will be required to have these items with you every day.

Academic Honesty Policy

Material in Google classroom

Tutoring
4:00-4:30
Wed & Thurs

Assignments and Grading

- ★ Assignments and labs are due within 7 days of the assignment start date.
- ★ Late work will lose up to 10 points per day.
- ★ All grades count as assessments for equal % in gradebook, some assignments may count more than one time (labs, projects, etc.)
- ★ Any missing assignments will be identified in gradebook with an "M".
- ★ Re-assessment must be completed within 5 days with maximum grade possible of 80

BADGES
required

What about passes??

NO passes 1st
15 minutes of any
class, NO passes 5th

Class components

bell ringers
vocabulary
notes
labs
videos
projects
research
quizzes
tests

Expectations

Be Responsible
Be Respectful
Be Accountable

Be on Time
Be on Task
DO WORK
