News from the Child Nutrition Team

“Who said there is no such thing as a free lunch?”

That’s right, effective the first day of school of the 2020-2021 school year, all students of LISD will be served the breakfast and lunch meal at no charge. Extra portions and a la carte items will be available for purchase. We may experience changes in menu due to the impact of Covid-19.

“Playing it Safe!”

Student and Staff safety is our top priority. The Child Nutrition team will be required to wear mask, take temperatures, and follow rigorous cleaning and sanitation processes. Whether we see your student in the lunch line, hallways, or at our Virtual Student meal pick-up sites, we will practice our social safety protocols.

• To minimize contact and possible spread of germs, we will encourage a NO CHANGE policy. Change that would normally be given back to a student will be credited to their account.
• We encourage you to use the online app, My School Bucks to add funds and monitor your student’s account.
• We will use card scanner/readers to eliminate keypad touch points.
• All menu items will be served in a self contain packaging in order to eliminate open exposure.
VIRTUAL STUDENTS
