

STREP THROAT

Source: WebMD; designed by RNtoBSN.org.

Symptoms can include but are not limited to:

- Elevated fever of 101 or greater
- Headache
- Nausea and/or vomiting
- Sore throat
- Decreased appetite
- Body aches
- Swollen lymph nodes

Strep **IS** contagious and children should be on antibiotics and be fever free for 24 hours. Remember to change your toothbrush out 48 hours after starting Antibiotics.
